## FOR IMMEDIATE RELEASE

December 15, 2015

### **TRACKER PRO Launches a New Website**

The Greater New York Hospital Association and Bluemark are excited to announce the launch of our newly designed TRACKER PRO website, [www.ractracker.org](http://www.ractracker.org). This new site includes our updated logo and design elements and will continue to be the homepage where our customers will access the solution. The modern design should not only improve the overall users' experience but will also make product information more accessible. Our goal is to provide our clients and website visitors with the most accurate up to date product information, and share our knowledge and expertise in the field of Audit Management.

Our site is divided into four main section plus support resources for current clients and easy ways for visitors to contact us with any questions. The TRACKER PRO section provides an overview of our flagship Audit Management Solution. In the Blueway Modules section clients can learn about new functionality that can be added to their base solution making TRACKER PRO one of the most comprehensive products in the market today. The About Us section talks about the unique relationship between GNYHA and Bluemark, two industry leaders working together to deliver powerful healthcare technology solutions. And finally the News section is where we will share valuable information about our products and the industry.

Please take a few minutes to check out the site for yourself. [www.ractracker.org](http://www.ractracker.org)

We will continue to add new content on a regular basis and we welcome your feedback at [stephenm@bluemark.net](mailto:stephenm@bluemark.net).
